

Hygge

Hygge (hoo-ga) is a Danish word that is difficult to translate. It's feeling cozy, comfortable and appreciating simple pleasures. For example, being with family and friends, sharing conversation and experiences, enjoying new flavors, good food and drink, creating memories.

When you bring a group to visit our village, we will introduce you to hygge by sharing our Danish cultural heritage and traditions with you. It will be a memorable experience for your group and you can visit...without a passport!

About the Danish Windmill—The Danish Windmill was originally built in Nørre Snede, Denmark in 1848. It was brought to America in pieces where it was lovingly rebuilt in the Danish Village of Elk Horn by community volunteers in 1976 in honor of their Danish ancestors.

We welcome visitors, children and families into this historic working mill where they learn about wind energy and green technology, agriculture and of course, our Danish cultural heritage and sense of place. The Mill is a 501(c)(3) non-profit corporation and donations are tax deductible to the extent allowed by law.
